DIARY NOTES

DD/S

10 December 1959

25X1A9a

2. I have asked Ed Saunders to look into the Budget situation for the Language Development Program and the Office of Training and to submit his recommendations to me as to what adjustments should be made, if any, in order to pay for the commitments we have made.

3. [REDACTED] was up to brief me on the status of funds for the Space, Maintenance and Facilities Branch of the Office of Logistics and to discuss specifically the request of the Photographic Intelligence Center for some \$30,000 worth of equipment-installation costs. After some discussion and talking to [REDACTED] about the matter, it was agreed that DD/I would pay 50% of this and Logistics the remainder. (I have so advised Ed Saunders.)

4. I also discussed with [REDACTED] the location of the computer. We have now agreed that it should be installed in either "K" or "I" Buildings and Marty was asked to develop a paper which would lay out the advantages and disadvantages, to include relative costs of these two locations, projecting the cost forward for two years, which should see us into our new building.
